

HandyStrap® Respirators

- HandyStrap, with buckle, allows mask to hang down around neck when not in use.
- Stretch cloth strap feels cool and comfortable against the skin.
- Exclusive Ventex® valve lets the hot air out faster so workers breathe easier and stay cooler longer.
- Soft foam nose flange, contoured nose bridge and Softspun® lining give all-day comfort.
- Dura-Mesh® shell resists collapsing in heat and humidity.

- Basic N95 models are available without (2600N95) or with Ventex valve (2700N95).
- 2800N95 features an added carbon layer for relief from nuisance levels of ozone and organic vapor odors.
- 2740R95 can be used in environments where oils may be present.
- 2730N100 features a full flange for added comfort.

COMMON APPLICATIONS: N95—Grinding, sanding, sweeping, bagging, stone quarrying, metal machining, soldering, brazing, cement mixing, polishing, poultry and textiles. No oils present. R95—Same environments as N95, where oils may be present. N100—Environments where an OSHA substance specific standard applies (lead, cadmium, arsenic, MDA), pharmaceutical manufacturing, welding, torch cutting, metal pouring, battery manufacturing. No oils present.

2850 Respirator Locker®

- Includes four 2800N95 masks.
- Approved for N95 with nuisance levels of ozone and organic vapor odors.
- Locker stores masks and keeps carbon layer fresh.

COMMON APPLICATIONS: For welding stainless, aluminum, galvanized. Arc, Brazing, Cutting.

2200N95/2300N95 Particulate Respirator For Non-Oil Based Particulates

- Collapse-resistant Dura-Mesh® shell lasts longer so workers use fewer masks.
- Shaped for comfort with contour molded nose bridge and soft, foam nose flange.
- Seals easily and comfortably without a metal noseband.
- 2200N95 is a basic economy model.
- 2300N95 features an exhalation valve to reduce hot-air build-up so it keeps workers cooler and more comfortable.

COMMON APPLICATIONS: Dusty environments, i.e., grinding, sanding, sweeping, bagging, stone quarrying, metal machining, cement, underground mining, polishing, buffing, lime, poultry and textiles. Additional 2300N Applications: welding, soldering and brazing.

2310N99/2315N99 Welding Respirators For Non-Oil Based Particulates

- Higher level of protection—N99.
- Dura-Mesh® shell resists collapsing in heat and humidity.
- Contour molded nose bridge and soft, foam nose flange for comfort.
- 2315N99 features adjustable cloth straps for a secure, snug fit.

COMMON APPLICATIONS: Welding, soldering, brazing and dusty environments where a higher level of protection is required. No oils present.

2250/2350 Respirator Locker®

- Provides hygienic storage for each worker, keeps masks clean.
- Allows employer to meter respirator usage.
- Separate compartment permits storage of used masks during breaks, preventing premature disposal of the masks.
- Includes five 2300N95 or 2200N95 masks.

2400N95/2500N95 Particulate Respirator

For Non-Oil Based Particulates plus Nuisance Ozone/Organic Vapors or Acid Gases

- Added charcoal layer for nuisance levels of ozone/organic vapor odors (2400N95) or acid gases (2500N95).
- Collapse-resistant Dura-Mesh® shell.
- Contour molded nose bridge and soft, foam nose flange.
- Exhale valve for easier breathing.

COMMON APPLICATIONS: OV—Welding and foundry operations, lab settings, agriculture, chemical processing, printing, food processing, paint and varnish manufacturing, waste processing and sewage treatment. AG—Aluminum, copper, zinc, brass, bronze smelting, glass etching, paper mills, breweries, fertilizer production, ceramic and clay processing, and chemical processing.

8111N/8112N/8113N 8111KN/8112KN/8113KN Paint Spray/Pesticide Respirator

- Use for oil-free agricultural pesticides & paint sprays.
- Soft, durable facepiece has a low profile for a wide field of vision.
- Cartridges snap in for easy replacement and come with a new inhalation valve with each change.
- Assembled respirator includes: 8000 Series Facepiece, 8100 Organic Vapor Cartridges (one pair), 8910 N95 Filters and 8020 Filter Retainer.
- Bucket Kit (shown left) includes assembled respirator, additional N95 filters, foam earplugs (one pair) and Paint Bucket.

COMMON APPLICATIONS: Paint spray, pesticides, degreasing, metal cleaning, adhesives, carpet installation, auto body shops, welding, printing, paint/varnish, mortuary, waste processing, sewerage, under coating, fertilizer.

8941/8942/8943 P100 Respirator

- Use for oil and non-oil based particulates.
- Soft, durable facepiece has a low profile for a wide field of vision.
- Filter disks are lighter than cartridges.
- Fewer parts so there is less maintenance.
- Assembled respirator includes: 8000 Series Facepiece, P100 filter disks and disk/filter holders.

COMMON APPLICATIONS: Lead, asbestos, welding, machining, exotic metals, powder coating, dry pesticides, foundries, other highly toxic substances.

Fox Welding Warehouse Product Catalog

6644/6645/6844/6845

PlugStation®

- Gives workers easy access to hearing protection.
- Affordable enough to be placed virtually anywhere.
- Eliminates messy packaging.
- Chute delivers plugs right into the palm of your hand.
- Available in 250 or 500 Pair with either SparkPlugs® (NRR 30) or Pura-Fit® (NRR 31) plugs.

6400/6405/6415/6420

Rockets® Reusable Earplugs

- The easy grip handle allows for easy insertion.
- Air bubble in the tip provides cushioned comfort.
- Earplugs can be washed and reused.
- Comes with a Pocket-Pak® carrying case to store plugs.
- Available corded and uncorded.
- NRR 26.

6506

Jazz Band®

- Ideal alternative to earmuffs.
- Optional breakaway neck cord allows the Jazz Band to conveniently hang around the neck when not in use.
- NRR 25 rating.

6800/6900

Pura-Fit® Foam Earplugs

- High NRR 31 rating.
- Tapered for easy insertion.
- Longer length for easy fitting and removal.
- Bright green color for easy compliance checks.

6604/6654

SparkPlugs® Foam Earplugs

- Multi-colored to put some spark into your hearing protection program.
- Soft, tapered design fits comfortably.
- NRR 30 rating.

6100/6200/6300

M Series EarMuffs

- SoftCoat™ covering on cups helps muffle transmitted noise.
- M1 has a black-chrome, spring-steel head band that won't twist out of shape. Folds for easy storage. NRR 29.
- M2 has molded grips for easy fitting and durable plastic headband that swivels so muff can be worn in three positions. NRR 26.
- M3 slots easily into any hard hat and can be locked into standby position for storage. NRR 24.
